"It's a new RPG game that is in a time period of fantasy. Not only you have to do the main quest, but you also have to feel the sadness of the story." "The NPC character's expression is lively, the music is beautiful, and the background image that matches the atmosphere is amazing. This game is a new RPG game that is in a time period of fantasy. Not only you have to do the main quest, but you also have to feel the sadness of the story. I like this game." "The story is like a new concept and the world is beautiful. At first, I thought "you can just make it like it is made like this", but after I played the game and tried to play carefully, it was like the main character was not me. When I realized that at the beginning, it is like an interesting new experience. What I like the most are the various weapons. You can freely replace the weapons, and the inventory is also very interesting." "In the story, the main character's name is Riku. He is an ordinary person, but he is also a strong warrior. He is getting to know the world of the Lands Between when they appear as a distorted version in his dreams. This game is also my first RPG game. I don't know whether it was fun, but I had an interesting time while playing. I'm so glad that it was a good game. I also like it when I looked at the various weapons and armor. It felt so real. I also like the lip gloss and hair styles. It was so eye-catching. It was my first time seeing that. I also like the main character's expression. You also have a variety of missions. You have to go to such places like a corn plantation, a swamp, a gloomy forest, and so on. It was fun because you can see a variety of different elements. I like that. The music is also very interesting. The music fits the atmosphere of the game. The status is also good. I also liked the feedback system, the way to use it." "I didn't find it difficult to play this game. In the beginning, I thought "this game is so complicated",

but then I tried to play carefully. I recommend this game. You can also have a good time while playing."
